

Dr. Ryan Guillemette

Postdoctoral Scientist
Biology Department
Southern California Coastal Water Research Project

Education

Ph.D., marine biology, University of California, San Diego, 2018

B.S., biology and ecology, University of Maine, 2009

Professional Experience

Joint Postdoctoral Scientist, Southern California Coastal Water Research Project. Costa Mesa, CA. 2023-present

Postdoctoral Researcher, United States Environmental Protection Agency, Hatfield Marine Science Center. Newport, OR. 2020-2023.

Postdoctoral Researcher, Massachusetts Institute of Technology. Cambridge, MA. 2019-2020.

Honors and Awards

Director's Recognition Team Award, "Diversity, Equity, & Inclusion", United States Environmental Protection Agency. 2022

Pathfinder Innovation Project Award, United States Environmental Protection Agency, "Detecting rain deposition of viable and potentially harmful airborne-bacteria" (competitive, agency-wide). 2020

Cold Spring Harbor Laboratory's "Advanced Bacterial Genetics course", National Science Foundation Scholarship. 2017

Selected Presentations and Conference Proceedings

Guillemette, R. 2022. Considerations for the Release of Genetically Engineered Bacteria in the Ocean. Pacific Ecological Systems Division Seminar Series, United States EPA.

Guillemette, R. 2022. Applied methods for microbial water quality of rainwater and its implications for rain harvesting. United States EPA Water Reuse Team. Via webinar.

Guillemette, R. 2021. Microbial water quality of freshly collected rainwater and its implications for rainwater harvesting. Hatfield Research Seminar Series, Newport, OR.

Guillemette, R., T. Samo, X. Mayali, and F. Azam. 2017. Vibrio cholerae predation on marine bacteria. ASM Conference on Vibrio: The Biology of Vibrio, Chicago, IL.

Guillemette, R., ..., F. Azam. 2017. Bacterioplankton drawdown of coral-mass spawn organic matter off Bocas del Toro, Panama. San Diego Coral Club, San Diego, CA.

Guillemette, R. 2017. Microbe and nutrient transport via rain. San Diego Microbiology Group, the University of California San Diego, La Jolla, CA.

Guillemette, R., ..., F. Azam. 2016. Heterotrophic bacteria contribute to rapid turnover of coral mass spawn organic matter. ISME16 Conference, Montreal, Canada.
